

A La Carte Webinar Series

# Handling Dermatology Specimens

Earn CEU Credit– *Live or On-Demand*

## 2 Ways to Watch

Join Agilent on the last full-week Tuesday of the month for our A la Carte Webinar Series. The webinar will also be available on-demand so you can watch as your schedule allows. Don't miss this opportunity to earn CEU credit sponsored by NSH.

### Live Webinar

Tuesday, October 22, 2024

12:00 pm ET

### On-Demand

Available following the live webcast through Friday, October 25, 2024

Register here for the live webcast and on-demand

Join Agilent for the final live A la Carte Webinar of the year as Janice Cook covers the 5 most common type of dermatopathology specimens. This presentation will include some general biology on these specimens as well as how a dermatologist determines what type of biopsy to take. She will discuss diseases specific to the biopsies and how IHC and special stains play a role in dermatopathology.

## Meet the Speaker

### Janice Cook

Customer Application Specialist,  
Agilent Technologies

Janice Cook has been a histology technician for 41 years, going through a Tri Service Histology Program at the AFIP while serving in the US Navy. Seven years later, she started doing histology in the civilian sector with various Kaiser facilities throughout the Bay Area in California. She has worked in various types of labs, from small to larger ones at teaching hospitals. Janice moved to Alaska for 19 years and did histology at the hospital in Fairbanks during that time. After 33 years of histology, she decided to broaden her career by joining Agilent as a Customer Application Specialist. Janice enjoys the teaching part of the job, as well as the troubleshooting part because she learns something new each time.
