

What's new?

Version 2023, build 2023-10, Database version 2023-08-01

160+ new chromatograms and application notes have been added to a total 6262 application notes.

Some minor bugs in the data content were fixed and some application notes withdrawn, due to discontinued products.

Scanview was also tested on Windows 11 and works fine.

The user interface has been updated to newer layout and icons.

A Scanview User Guide has been added.

The PowerPoint Tutorial has been updated.

A 'Check Community for update' menu entry in the help section has been added.

More than 3000 application notes now have a preview available.
